MADE IN ITALY

**SS24**

BAGS  
COLLECTION

## **Spring Summer 2024 Collection: a tribute to Style and Passion**

At Ripani - since over fifty years – we constantly feed ourselves on work and inspiration. Competence and creativity, rigour and enthusiasm. Everything to grant the everyday luxury of an authentically Made in Italy bag.

Our company has been able to inject these values into its products also thanks to the women who have succeeded one another over time in every area, from the production to the design, from the sales to the marketing; this is why Ripani dedicates this collection and its lines to them.

Just as each one of these wonderful ladies contributed with her own uniqueness to the company's success, Ripani's SS24 collection is composed of models with a strong identity and rich details, small treasures that together become the guardians of the Italian manufacturing tradition.

Among the materials, smooth leather or deerskin effect is flanked by the lightness of fabric and the summery flavour of raffia, linen and crochet; the sumptuousness of nappa leather and the brilliance of nappalack are matched by the elegance of the vegetal effect and the liveliness of vegetalised leather. Laminated leather is the final touch of brilliance among next summer's materials.

The chromatic range has been expanded, in fact you can see the more classic pastel shades flanked by some fluorescent colours that catalyse attention by further enhancing the lines. Ripani's commitment to sustainability is reaffirmed - as it is every season - by the use of certified suppliers for all materials, of renewable sources of energy but also through the optimisation of leather scraps and their reuse.

The wide range of models re-proposes the stylistic features of our brand, alongside new shapes that combine elegance and practicality. There is room for the 'Double R' logo, symbolising the continuity of Ripani's values over the years, as well as the desire to propose creations suited to every context. The details - be they workmanship or contrasting components - enhance each model, making it both up-to-date and stylistically durable, to guarantee over time the everyday luxury of an authentically Made in Italy bag.  
A Ripani bag.
